

Einfaches Malnehmen

1. Wie viele Schmetterlinge fliegen?

$$2 + 2 + 2 = \square$$

$$3 \times 2 = \square$$

2. Wandle folgende Plusrechnungen in Malrechnungen um:

$$1$$

$$1 \times 1 = \square$$

$$1 + 1 = \square$$

$$2 \times 1 = \square$$

$$1 + 1 + 1 = \square$$

$$3 \times 1 = \square$$

$$1 + 1 + 1 + 1 = \square$$

$$4 \times 1 = \square$$

$$2$$

$$1 \times 2 = \square$$

$$2 + 2 = \square$$

$$2 \times 2 = \square$$

$$2 + 2 + 2 = \square$$

$$3 \times 2 = \square$$

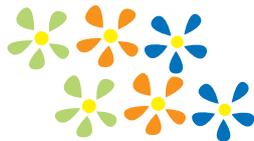

$$2 + 2 + 2 + 2 = \square$$

$$4 \times 2 = \square$$

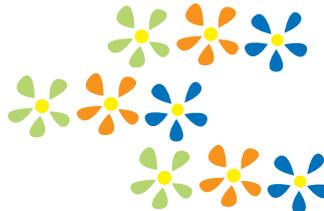

$$3$$

$$1 \times 3 = \square$$

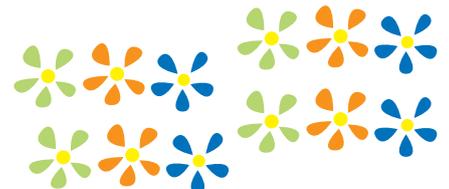

$$3 + 3 = \square$$

$$2 \times 3 = \square$$

$$3 + 3 + 3 = \square$$

$$3 \times 3 = \square$$

$$3 + 3 + 3 + 3 = \square$$

$$4 \times 3 = \square$$

$$4$$

$$1 \times 4 = \square$$

$$4 + 4 = \square$$

$$2 \times 4 = \square$$

$$4 + 4 + 4 = \square$$

$$3 \times 4 = \square$$

$$4 + 4 + 4 + 4 = \square$$

$$4 \times 4 = \square$$
