

Faire une guirlande de fleurs

Relie les fleurs ensemble, de manière de commencer et de terminer à la même fleur mais en ne touchant chaque fleur que 1 fois

A 5x4 grid of vertical flower garlands for a dot-marker activity. Each garland consists of five red flowers on a green stem. The flowers are arranged in a zig-zag pattern: the top flower is on the left, the second on the right, the third on the left, the fourth on the right, and the fifth on the left. A short horizontal line is drawn to the right of the top flower in each garland, serving as a starting point for the marker.
